

For over 40 years (including the 33+ years in Tremonton) we have been privileged and blessed to serve our friends and patients. During that time we have made lasting friendships with you and will always be grateful for your trust and kindness to us.

Although we really don't feel much older than those youngsters who started practicing here in this office in 1991, the mirror tells us otherwise! And so we have made the difficult decision to sell our practice and move on to new adventures!

After carefully considering and evaluating several offers, we have chosen to sell our dental practice to Dr Gabriel Dickes of Tremonton Dental, who we feel is well qualified to continue serving you with the kindness and excellence we hope you have found in our practice. We have become familiar with Dr Dickes during the past two years that he has practiced dentistry just across the hall from us, and trust that the transition will be seamless for you.

This formal change will take place on January 2, 2025, and all patient records and outstanding financial accounts will be transferred to him.

Dr Dickes is from a small town in Utah, and moved to Texas shortly after graduating with high marks from the University of Utah School of Dentistry. After operating a successful office in rural Texas he and his wife moved back to Utah to raise their children near family, and lives nearby with his supportive wife Alecia and their three children. He served a mission for the LDS church in Washington, D.C, and loves spending time outdoors and composing music. His love of meeting new people and forming good relationships is what drew him to dentistry and helps him excel in patient care.

We feel confident that Dr Dickes and his kind, friendly dental team will continue to provide you and your family with the highest quality dental care. Dr Dickes and his staff will be contacting you for your next regularly scheduled visit and look forward to meeting and getting to know you and your family. If you have any questions, you may call their office at 435-239-7071.

On a final personal note, we confess our feelings have been mixed about taking this step. We have loved serving you and have laughed and cried with many of you and have loved learning your personal stories. Many of you have become dear lifelong friends and we will always treasure those friendships. You have been much more than patients to us. On our operatory wall is this quote from Mother Theresa, "Peace begins with a smile."

Keep smiling, and may your future be filled with peace!
